

What do you know about fraud in education?

Survey: Students' awareness on fraud in education

The survey is developed in the framework of the Erasmus+ project "FraudS+: False Records, Altered Diploma and Diploma Mills Qualifications Collection" (2020-2022).

Its objective is to analyse the knowledge of the phenomenon of fraud in education among students, in order to design useful tools for the promotion of ethics and transparency in education. This survey will also contribute to raising students' awareness on the phenomenon and strengthening their ability to deal with it.

Students' participation is a key aspect for the project, in order to plan a successful strategy, together with policy makers, higher education institutions and relevant stakeholders, involved in the dialogue on the issue of fraud in education.

Target groups

- Students in higher education
- Students attending the last year of upper secondary education
- Students' unions

Objectives

- Analysing the knowledge of the phenomenon of fraud in education among students
- Raising students' awareness on the phenomenon
- Involving students and students' unions in the fight against fraud in education
- Gaining a better understanding on how to promote ethics and transparency in education
