Document Fraud for Credential Evaluators

- Be curious. If something is dubious to you, investigate further.
- Consider the media to be your allies.
- Don't trust paper. Digital verification first.
- Cooperate with other organisations. Share information.
- Verify authenticity when possible.
- Keep archives of verified documents and common authenticity features.
- Keep archives of fake qualifications as well.
- Always work on documents in original language.
- Fake qualifications rarely come unaccompanied. If you received one, look for siblings.
- No half measures. Fake qualifications damage the whole society.
