LEVEL OF QUALIFICATION (ACCORDING TO THE BOLOGNA PROCESS, EQF AND NQF)
Bologna Cycle 1
EQF level 6
National QF 6

DESCRIPTION
Bachelor is an educational degree that is acquired at the first level of higher education and awarded by the Higher Educational Institution upon successful completion of educational and professional program. Its workload is 180-240 ECTS credits (3-4 years generally; 1 year - 60 ECTS credits). The workload required for the award of a bachelor degree to a student who is continuing studies after having been awarded a relevant Junior Bachelor degree shall be defined by the HEI. The first (Bachelor) higher education level stipulates person's acquisition of theoretical knowledge and practical skills. It must be sufficient for successful accomplishment of professional duties in conformity with the major. Students, who demonstrated achievement of exceptionally high standards while studying and successfully passed state attestation at the state-accredited HEI are awarded with diploma with honours ("red diploma"). According to the Law of Ukraine "On Higher Education": higher educational institutions have obtained a right to offer accredited and non-accredited educational programs to the applicants since September 2014. A graduate receives an educational document of the state standard after successful completion of the accredited program. The format and contents of the state standard educational document are established by the legislation. At the same time higher educational institutions apply their specified letterheads that may differ in appearance. After completion of non-accredited educational program the graduate receives a non-state standard document on education (approved by the academic board of the HEI). Series of the state standard documents are "A", "B", "C", "M", "E", "K", "P", and series of the non-state standardized documents: "K", "P", "Q".
Thank you for your attention

Special thanks to our colleague from ECE Tatiana McKenna for support and material to prepare this webinar
